Human in the Loop Configuration

Configure routing, SLA targets, and auto-response for human-in-the-loop requests.

Email Notifications

Send email notifications when feedback is requested

Disable if you only want to use webhooks or the dashboard UI.

Routing Rules

Route methods to specific email addresses

SLA Target

Target response time for human feedback requests. Used for SLA compliance tracking in metrics.

e.g., 120

 minutes

Leave empty to disable SLA tracking in the dashboard

Auto-Response

Auto-respond if no one replies in time

Webhooks

Send signed requests to external apps

what are your roles?

Hey! I'm here to help you with ensuring accurate patent intelligence and compliance through data analysis and risk assessment across cases. My main role includes assisting you in retrieving and analyzing patent document data, monitoring regulatory changes in European patent law, and verifying and assessing specific patent cases.

If you have a specific patent number, regulatory domain, or case ID you want to explore, please provide me with those inputs so we can get started!

Ask anything

Please fill in this field.
